Great looking site thus far.. I am pretty impressed with it. I look forward to seeing the ongoing progress. If you need anything at all from me, be sure to let me know.

Thanks, did you find the site from joomla's forums?

What sites do you run?

First site is

[www.TheResurrectionofHipHop.com](http://www.TheResurrectionofHipHop.com)

(Extremely Un-Updated!) Just reopened it today.. I am scouting potential fans who knows vBulletin to co-run it for me.

Second site is..

[www.UrbanAU.com](http://www.UrbanAU.com) (Urban Artists United) the core site..

Still in the process of getting it all together, pretty soon i'm hoping to have a staff to manage both sites..

Nice sites.

Right now, I'm just working on getting more content rolled out and then start the marketing/promotion for the site.

I don't like Fireboard much but it's the only one I found that works best with Joomla. I'm going to be customizing it more over the next couple days.
